Healthy Families North Georgia™ (HFNG) promotes child well-being and prevents abuse and neglect through in-home, family-focused support. Mothers who are expecting or have a newborn enroll into the program to receive support through weekly home visits where a Family Support Specialist focuses on attachment, developmental milestones, and family support for the first three years of the child’s life.

Functional Family Therapy (FFT) is a therapeutic service for families with a child ages 11 to 18 that need help working through complex behavioral and mental health challenges, substance abuse, and/or trauma. This treatment aims to engage each member of the family and ensure that everyone feels heard and supported.

Positive Parenting Program (Triple P) combines parent education classes and one-on-one coaching to help parents address behavioral challenges and give them the tools to help their children to realize their potential. Available for families of all ages, Triple P takes the guesswork out of parenting.

Foster Care
Foster Care provides a temporary living situation for children whose parents cannot take care of them and whose need for care has come to the attention of the child welfare agency. Wellroot recruits and trains foster parents to care for the most vulnerable children in the foster care system.

Transitional and Independent Living (TLP/ILP)
TLP/ILP provides housing and shepherds young adults as they transition from foster care to adulthood, ensuring that they are set up for financial, personal, and spiritual success.

Family Housing
Family Housing supports families facing temporary homelessness by providing housing, stability and a safety net of intervention services designed to enhance skills and self-sufficiency.

From the President and CEO

I want to offer a heartfelt thank you to our staff, board of directors, donors, partners, churches, and ministry leaders from the North Georgia Conference of The United Methodist Church.

In our fiscal year 2022, Wellroot celebrated 150 years of impact and successfully launched the first year of our bold three-year strategic plan. We added three evidence-based programs that help children and families build resiliency and connect families in crisis with the resources they need to create a safe and stable home. As a result of these new programs, Wellroot nearly doubled the number of people served, helping 393 children and parents build a strong family foundation. Our overall impact through our programs, community trainings, and higher-education scholarships reached over 700 children, youth, and parents.

Thank you for believing that every child deserves a loving, compassionate, and nurturing home, and investing in this vision.

As we look toward 2023 with great expectation and hope, we are excited to build upon many great successes. This year we will:

• Recruit, equip, and train foster parents to care for the most vulnerable children in the foster care system
• Serve more children and families by continuing to expand our family preservation programs
• Renovate our residential program property in order to double the amount of youth and families we serve

There is a lot of work to be done, but we have the vision, the tools, and unwavering commitment to change the outcomes for our most precious resources: our families. We believe that well-rooted families help build well-rounded communities.

We invite you to continue partnering with us as we provide foster care, family housing, and family preservation services to those in need through God’s love.

Warmest Regards,

Allison Ashe
President and CEO

Stories of Giving Home

Chastity is a 16-year-old junior in high school who had her new baby boy in September 2021 and was referred to Wellroot’s Healthy Families North Georgia™ program. Chastity is working hard with help from her Wellroot family support specialist. She has enrolled back into high school and obtained a job to be able to provide for her son. With little family support, Chastity is thankful for Wellroot’s support services to help her be the best mother she can be as she makes a healthy home for herself and her son.

Stacy and Todd Wallace fostered Calvin and Brian for four years. The Wallaces were a source of encouragement for their father and practiced partnership parenting to grow a relationship with him and promote reunification for the boys. Everyone was so excited when Calvin and Brian were finally reunited with their dad, and they still talk daily. “We are so thankful that God has allowed us to maintain a relationship with him and promote reunification for the boys. Everyone was so excited when Calvin and Brian were finally reunited with their dad, and they still talk daily.”

Stacy and Todd continue building new family traditions as an extended family for Calvin, Brian, and their father. In 2022, they enjoyed cheering on the Georgia Bulldogs for their spring game, attending Wellroot’s FamFest event at Six Flags, and making new memories during their annual weeklong trip to Daytona Beach Shores.
I want to offer a heartfelt thank you to our staff, board of directors, donors, partners, churches, and ministry leaders from the North Georgia Conference of The United Methodist Church.

Family Preservation

Healthy Families North Georgia™ (HFNG) promotes child well-being and prevents abuse and neglect through in-home, family-focused support. Mothers who are expecting or have a newborn enroll into the program to receive support through weekly home visits where a Family Support Specialist focuses on attachment, developmental milestones, and family support for the first three years of the child’s life.

Functional Family Therapy (FFT) is a therapeutic service for families with a child ages 11 to 18 that need help working through complex behavioral and mental health challenges, substance abuse, and/or trauma. This treatment aims to engage each member of the family and ensure that everyone feels heard and supported.

Positive Parenting Program (Triple P) combines parent education classes and one-on-one coaching to help parents address behavioral challenges and give them the tools to help their children to realize their potential. Available for families of all ages, Triple P takes the guesswork out of parenting.

Foster Care

Foster Care provides a temporary living situation for children whose parents cannot take care of them and whose need for care has come to the attention of the child welfare agency. Wellroot recruits and trains foster parents to care for the most vulnerable children in the foster care system.

Transitional and Independent Living (TLP/ILP)

TLP/ILP provides housing and shepherds young adults as they transition from foster care to adulthood, ensuring that they are set up for financial, personal, and spiritual success.

Family Housing

Family Housing supports families facing temporary homelessness by providing housing, stability and a safety net of intervention services designed to enhance skills and self-sufficiency.

Our Programs

We nurture happy, healthy families.

Wellroot’s Transitional and Independent Living Programs serve young people transitioning from foster care to adulthood by providing a safe place to live, along with ongoing life skills development. Those youth need and deserve healthy connections, a sense of control over their environment, and a strong self-confidence so that they can become the best versions of themselves.

Thanks to several legacy gifts, in June 2022 Wellroot purchased a new home for our youth transitioning out of foster care. This stability, perhaps for the first time in their lives, serves as a launching point for the next phase of their healing, life skills education, and future successful independance.
